MAXIMA® NATURAL ELEGANCE® UNIVERSAL BOND

Maxima® Natural Elegance Universal bond is the latest generation of light-curing single-component adhesive for use with self-etching, selective etching or full-etch technique for adhesive restorations.

Advantages

Ultimate bond strength with 10 mdp for enhanced adhesion

Excellent marginal sealing minimizes post-operative sensitivity

Saves time with a combined primer and bonding agent

Compatible with all resin materials

Antibacterial

Ergonomic, easy-to-grip triangular bottle with precise dispensing system

Nanofilled technology – delivers a homogenous bond layer and improves mechanical properties

Bonds to titanium and Zirconium oxide without using a primer/silane

Etching of Enamel and Dentine is optional, not required

MAXIMA® NATURAL ELEGANCE® UNIVERSAL BOND
